IHS Markit and Institutional Limited Partners Association Partner to Bring iLEVEL to Members

LONDON (November 28, 2018) – IHS Markit (Nasdaq: INFO), a world leader in critical information, analytics and solutions, today announced an agreement with the Institutional Limited Partners Association (ILPA) to offer iLEVEL to ILPA members.

iLEVEL offers private equity and venture capital limited partners (LPs) a sophisticated managed data service as part of a cloud-based data collection, investment monitoring and custom reporting solution. Robust data management tools and controls in the platform make it easy to access granular details about holdings and valuations at the investment level as well as aggregated views of portfolio data. Embedded analytics calculate IRR performance at the fund and portfolio levels and quantify exposures by fund manager, vintage year, geography, sector, region or strategy. Data can be accessed securely with mobile devices or a portal that also features interactive charting and tables.

“Creating more transparency in private markets and helping LPs access and manage data more effectively is a priority for ILPA,” said Greg Durst, managing director of Corporate Development for ILPA. “iLEVEL supports our standards for GP reporting and offers customizable tools that help LPs track investments and monitor performance. We are pleased to be able to offer our members an opportunity to access this unique solution set.”

“iLEVEL is the bridge that connects LPs to GPs (general partners) and we help investors overcome the dual challenge of collecting and managing the data they need to make informed portfolio decisions,” said Jaime Hildreth, managing director with iLEVEL at IHS Markit. “Aligning with ILPA helps ensure our services support the goals of the industry. We look forward to having more LPs benefit from our expertise through this collaboration.”

Worldwide, more than 450 LPs and GPs use iLEVEL or related products for portfolio management, reporting, analytics, compliance and valuation.
