Back Office/Fund Accounting	N	Research Management System	N
Data Extraction Technology	N	Contact Management	Y
Market Data	N		

Differentiation Statement

The true value of DealCloud's software for limited partners is that it was built specifically for limited partners, and with their unique needs in mind. Limited partners maintain a complex web of relationships with GPs, advisors, bankers, brokers and other intermediaries, placement agents, accountants, consultants, lawyers, and other deal influencers. Without technology, LPs are at a disadvantage as they collect deal memorandums and industry insights because those cannot be transformed into institutional knowledge. With DealCloud, every data set a limited partner cares about comes to life and can be reported on.
